FOOTWEAR

WHY

BASED ON OUR IDENTITY.

Since 1989, football has been an important part of our DNA, embodied by the passion of our founder Rudi Sprügel. Today, more than 100,000 teams in more than 50 countries wear JAKO teamwear. Now we want to offer all footballers – from the grassroots to the Champions League – the perfect football boots.

WE ARE FOOTBALL.

Discover now!

HOW

MADE IN EUROPE. ENGINEERED IN GERMANY.

The JAKO football boots convince with a last specially developed for Europe and a maximum focus on fit and comfort. Rounded off by a modern design and paired with optimal performance thanks to an innovative manufacturing process without conventional gluing. Here we also follow the JAKO way with product love, service and partnership.

MADE IN EUROPE.

WHAT

DESIGNED BY PLAYERS. ROOTED IN HERITAGE.
INSPIRED BY NATURE.

With the new models OPURA and RS89, ultra-modern technology meets the well-known JAKO advantages such as availability and fast delivery.

RS89

Unleash your instinct.

The RS89 convinces with its lightweight, technical upper material for more dynamic performance combined with exceptional comfort.

OPURA

Control the game.

Thanks to its high-quality upper material made of synthetic leather the OPURA offers you an optimal feel for the ball and allows you to control every play.

Enter a new era with JAKO!

DESIGN PRODUCTS SUSTAINABLE

More than

organic cotton

Organic cotton does not use synthetic chemical pesticides or genetically modified plants. This reduces the impact on soil, water and air.

Approx. 40 %
Recycled polyester

Most of our textiles are made from polyester as it's ideal for sporting activities thanks to it's functional properties. In order to make textile production even more sustainable, we have been increasingly using recycled polyester since 2020. In addition to new teamlines, popular articles such as the jersey Team or the shorts Manchester 2.0 are now made from recycled polyester.

WE WANT TO CLOSE THE CYCLE

In the last few years, we have already intensively worked on recycled polyester. In 2022, we launched a recycling project to collect worn textiles in Europe and return them to the textile cycle. Together with partners and clubs, we collected discarded sportswear for the first time. A thermomechanical process was applied to create polyester granulate, which was used to produce new yarn and consequently a new jersey in 2023.

We now want to improve this cycle and are therefore testing a new recycling process. With the support of our retailers and partner clubs, we are once again collecting textiles that will be chemically recycled. The result is going to be the jersey LOOP, which combines important product features with a transparent recycling process. We are determined to contribute to creating sustainable solutions. True to the motto: **Our Team for a better World**.

TEAM CREATOR

YOUR TEAM – YOUR DESIGN

As individual as your team. With our 3D configurator you can let your creativity flow. Design your team outfit according to your wishes. In no time at all, you'll have a new, unique match outfit.

You can choose from numerous existing design options or create your own personal design. The wide range of colours, different cuts and patterns, as well as personalization with numbers and names round off your jersey. The jerseys will then be produced directly and delivered within 8 weeks.

- 100 % individual: for unique designs
- Wide range of materials, shapes and colours
- Delivery within 8 weeks
- High quality standard: especially for your sport
- Flexible order quantities: Production from 1 piece
- Sustainable materials: 100 % recycled polyester

BALLS

CERTIFICATES

FAIRTRADE

The training ball WORLD (p. 230) is produced under FAIRTRADE conditions. Here, additional focus is placed on the payment of a bonus to the producer organizations. The payment of a bonus enables the employees to invest in joint projects that improve the living and working conditions of local people.

FIFA QUALITY PRO

The “FIFA Quality Pro” certificate promises maximum performance, accuracy and safety. This quality seal guarantees optimum performance at the highest level.

FIFA BASIC

Articles certified with the “FIFA Basic” certificate fulfill the fundamental criteria of performance, precision, safety and durability.

SURFACE/GRIP

The high quality, structured PU material of the ball offers optimum grip and leads to precise flight characteristics. In addition, the profiled surface improves aerodynamics and gives the ball a stable trajectory.

SEAMS

Hand-stitched balls: The precise seams lead to a perfect form stability and maintain optimal ball pressure. The high-quality workmanship gives the ball a long life span and makes it particularly robust.

Machine-stitched balls: The increased number of stitching points ensures a particularly strong connection between the panels, which makes the ball extremely hard-wearing. The special construction also gives it the high-quality appearance of a hand-stitched ball.

Bonding technology: The seamless workmanship makes the ball particulary round and enables higher speed in games. The special glue reduces the water absorption, which significantly increases the life span and keeps the ball dimensionally stable even in wet conditions.

Hybrid balls: By combining stitching and gluing, hybrid balls combine the advantages of both technologies, giving them exceptional durability, stability and optimum playability.

LAYERS

The individual combination of various layers of foam lead to a soft, precise ball feeling and at the same time guarantees constant ball properties, even at low temperatures.

BLADDER

Butyl bladder: The high density of the butyl bladder minimizes air loss, allowing the ball to keep its shape for a long time. If the bladder is also wrapped, it ensures perfect roundness and relieves the material which increases durability.

Rubber bladder: The rubber bladder offers significantly better air retention than the latex bladder. If the rubber bladder is also wrapped, it ensures perfect roundness of the ball. This helps to relieve the material and therefore contributes to a longer durability and higher playing quality.

FUNCTION

On the sports field, in the gym or on long working days: the functional properties of our textiles help you look good in every situation. Pay attention to the corresponding icons KEEP DRY and STOP WATER on the JAKO products.

TEXTILE CARE

Textile friendly washing and drying is an essential part of textile care. In order to enjoy your textiles for a long time, you should pay attention to the care symbols on the label in the clothing. With tips and tricks from clevercare.info you will learn sustainable textile care.

CUSTOMIZATION

Club badge, sponsor logos or player numbers: with a customization you can make your equipment unmistakeable. That is why numerous JAKO team sport articles offer large free space for individual customization. Talk to your local sports retailer.

NOTE: When finishing with screen printing, we recommend the use of a migration blocker to achieve the best possible result.

KEEP DRY

Microfine fibres transport moisture directly to the surface of the fabric. Thus, the material dries very quickly, protects against cooling and keeps you a comfortable body feeling during sports.

STOP WATER

Waterproof functional materials and welded main seams also provide reliable protection against moisture. The high water vapour permeability guarantees a comfortable body climate.
